“ People help you, or you help them, and when we offer or receive help, we take in each other. And then we are saved. ”

— ANNE LMOTT

“ Design is not just what it looks like and feels like. Design is how it works. ”

—STEVE JOBS

# Autobiography

Hello Everyone, My Name is Sultan, I born in jun /27/ 1986, so I'm 28 years old. I'm from Saudi Arabia, Jeddah which is my favorite city.

I got a bachelor degree in computer engineering in 2010 from Albaha College of Science, and I'm looking forward to get my masters degree in WNM from Academy of Art University.

I like programming, especially in C, JavaScript, Java, and PHP. In WNM department, I learned that importance of coloring and simplicity of the design it's important to make the user enjoy applications and make it easy for a lot of people to use the application.

My goals is to enrich people to help and love each other. And remember that we are live in one planet.
